SUMMARY

Full-stack developer with hands-on experience building production-ready applications using Spring Boot, React, Node.js, and AWS. Strong foundation in Data Structures & Algorithms with 800+ LeetCode problems solved. Passionate about scalable system design, cloud-native deployments, and AI-integrated tooling.

EDUCATION

Sri Krishna College of Engineering and Technology

B.Tech in Information Technology

Coimbatore, Tamil Nadu

Sep 2023 – Aug 2027 | CGPA: 8.41 / 10.0

TECHNICAL SKILLS

Languages	Java, JavaScript (ES6+), TypeScript, Python, SQL
Frontend	React.js, Vite.js, HTML5, CSS3, Tailwind CSS
Backend	Spring Boot, Node.js, Express.js, REST APIs, JWT Authentication, RBAC
Cloud & DevOps	AWS (EC2, S3, Lambda, ECS), Docker, Docker Compose, CI/CD
Databases	MySQL, MongoDB, Redis
Core Concepts	DSA, OOP, DBMS, OS, Computer Networks, System Design
Tools	Git, GitHub, Postman, IntelliJ IDEA, VS Code, Agile (Scrum)

PROJECTS

Bug Tracker Application | GitHub

Jan 2025 – Mar 2025

- Architected a full-stack Jira-like bug tracking platform with multi-project workflows, sprint management, and real-time status updates.
- Implemented JWT-based authentication and RBAC with 4 permission levels (Admin, Manager, Developer, Viewer), securing all API routes.
- Built an NLP-based duplicate bug detection engine using cosine similarity, achieving 85% accuracy in flagging redundant reports.
- Designed 30+ REST APIs documented with Swagger and deployed on AWS EC2 with load balancing and auto-scaling configuration.

DineDirectory – Restaurant Booking Platform | GitHub

Oct 2024 – Dec 2024

- Developed a scalable restaurant discovery and reservation platform with dynamic table allocation and concurrent booking conflict prevention.
- Built 20+ RESTful APIs using Node.js and Express.js for authentication, reservations, restaurant onboarding, and search functionality.
- Integrated Redis caching and Docker Compose-based container orchestration for improved scalability and deployment consistency.
- Implemented advanced filtering and search features based on cuisine, availability, ratings, and location for enhanced user experience.

AI-Powered Interview Preparation Platform | GitHub

Jan 2026– Apr 2026

- Architected a full-stack interview preparation platform supporting coding assessments, AI-generated feedback, and adaptive learning workflows.
- Integrated Groq-hosted LLaMA 3 models for semantic answer evaluation, resume-based interview question generation, and personalized learning recommendations.
- Designed a progress tracking dashboard with performance analytics, topic-wise heatmaps, and AI-curated study plans based on weak areas.

ACHIEVEMENTS & CERTIFICATIONS

Competitive Programming

Ongoing

- Solved 800+ problems on LeetCode (arrays, graphs, DP, trees); ranked top 30% across 20+ weekly/biweekly contests. Solved 200+ problems on Codeforces and HackerRank.

Certifications & Leadership

2023 – 2025

- Completed multiple CS-related NPTEL certifications (IIT Kharagpur) with 80%+ scores across subjects including Java, Data Structures, and Computer Networks.
- Completed Infosys Springboard Virtual Internship in Software Engineering with distinction; earned Google Cloud Associate Cloud Engineer fundamentals certification.
- Participated in 5+ hackathons; awarded Best UI/UX Design (2024). Organized weekly DSA workshops for 50+ students, boosting department LeetCode participation by 30%.
